Moran reported the income to his stockholders, which resulted in the stock price increasing, but what stockholders didn't

know at the time was that the funds were derived from defrauding veteran's TRICARE and other health Care beneficiaries, including the City of Jackson's health benefit program.

Hattiesburg Patriot News Media is following the money in this ongoing investigation. A feature story will be published next week on Moran and Dewmar. To catch up on this story search for the hashtag **#MarCon** on Facebook and Twitter.
